ANCHORING SYSTEMS

Sump Pumps and Basins

Your Premier Distributor for Contractor-Grade Sump Pump Systems and Basins

Intech Anchoring Systems serves as a trusted distributor catering to contractors and installers within the industry. As a specialized provider, we offer a diverse range of sump pumps and basins designed to meet the needs of professionals tasked with safeguarding residential properties against water intrusion and moisture-related issues.

SUMP PUMPS

When it comes to safeguarding basements and crawlspaces from water damage, contractors trust Blue Angel Sump Pumps for their superior reliability and performance. Engineered with durability and efficiency in mind, these pumps are the go-to solution for residential water management projects.

Contractors and installers appreciate the ease of installation and maintenance that comes with Blue Angel Sump Pumps. With straightforward setup and minimal upkeep requirements, these pumps streamline project timelines and ensure hassle-free operation for homeowners.

We provide pre-assembled combination systems comprising both cast iron primary and backup units, available in 1/3 hp and 1/2 hp options. Additionally, our lineup features premium submersible stainless steel pumps in both 1/3 hp and 1/2 hp configurations.

Part Number	Description
F33SSN	Sump Pump Combo Blue Angel 1/3 Pre-assembled Primary & Back-Up Pump
SSF33S	Sump Pump 1/3HP Stainless Steel w/Integrated Vertical Switch
F50SSN	1/2 HP, Blue Angel Combo Pre-assembled Primary Backup Pump
SSF50S	1/2 hp Sump Pump, Stainless Steel w/Integrated Vertical Switch

SUMP BASINS

Discover the ultimate durability with our sump basins, crafted from robust structural foam to withstand the toughest conditions without cracking or denting. Featuring self-tapping lags for cover attachment, there's no need for inserts that can corrode over time, ensuring lasting reliability. Plus, our basins boast dual raised flat pockets for a flawless inlet seal every time, and integrated internal stacking ribs allow for seamless stack and nest shipment without sticking. With these innovative features, our sump basins provide unmatched performance and convenience for your water management needs.

Part Number	Description
SF1822PERF	Basin 18"x22" Structural Foam with lid w/3 Rows of Holes
SF1830PERF	Basin 18"x30" Structural Foam with lid w/3 Rows of .5" Holes
SF2424PERF	Basin 24"x24" Structural Foam with lid w/3 Rows of .5" Holes
TSB1824PIT	Basin 18"x24" Tapered Corrugated with lid
